

## FINANCIAL INCLUSION

People living in poverty are constantly juggling risks and crises, and often have unpredictable incomes. This is even more acute in places that are at risk from climate impacts, where over 80% of the world's 1.4 billion adults without bank accounts live. At BRAC, we believe that sustainable, large-scale change must deliver both social and economic progress. Financial services are a powerful tool to help people manage irregular income, minimise risks, respond to shocks, and invest for the future. Ensuring access to them is a vital component of our holistic development approach.

## MICROFINANCE

### Unlocking the entrepreneurial spirit of women

BRAC Myanmar Microfinance Company Limited is the third-largest microfinance institution in Myanmar, with 70 branches across 92 townships. We provide responsible and inclusive financial services to people who are excluded from the mainstream financial system, with a strong focus on women living in poverty in hard-to-reach areas, as well as other populations living in marginalised conditions.

We offer a range of loan and savings products, including collateral-free group loans exclusively for women, small enterprise loans, microenterprise loans for women, loans for smallholder farmers, and inclusive finance for persons with disabilities. With tailored financial services and training, women are building financial resilience, creating self-employment opportunities, and strengthening livelihoods. When women have access to financial services, they invest in brighter futures for themselves, their families, and their communities.
